[flowchart.pptx](#)

Hi Tina;

Basis analytical approach attached. Also, in the spreadsheet you are working from, the following changes in flow (column I) were updated, based on review of permit or other sources:

Stillwater Mine (MT0024716): 0.51 MGD

Montana Rail Link (MT0000388): 0.0384 MGD

Montana B. Health (MT0021431): 0.01 MGD

Drumlummon Mine (MT0031721): 0.864 MGD

Sidney Sugar (MT0000248): 0.1642 MGD

Also, Laurel WWTP plant (MT0020311) is 1.13 MGD (so a major), and Butte Highlands (MT0031755) has zero discharge according to recent ICIS reports but the permit says they have 1.08 MGD, so that makes them a major too.

Mike
